COSTS LOWERED

**EXCELLENT**  
RIDE QUALITY

**PREVENTS**  
BOTTOMING OUT

**ADJUSTABLE**  
LEVELLING CONTROL

**IMPROVES**  
STEERING & BRAKING

**REDUCES**  
TYRE WEAR

## EASY LEVELLING SOLUTION WHEN TOWING OR CARRYING LOAD

Install airbags on your vehicle & you'll be able to lift & level up a sagging rear end when **carrying extra, uneven loads or towing trailers**.

Airbags will give your vehicle the **extra support** needed for more **comfortable, economical & safer driving**.

## HOW DO I INFLATE MY AIRBAGS?

Each kit comes complete with inflation valves for manual inflation which will give you access to inflate & deflate your airbags using a portable compressor, hand pump or service station facility.

## ON BOARD AIR CONTROL SYSTEMS

Airbag Man also have a large range of optional **add-on on-board air control kits** to allow quick inflation & deflation via simple flick of a switch technology. Digital Gauges, Analogue Dual Needle Gauges, Air Tanks, Compressors, Pneumatic Switches, Wireless Control, Automatic Levelling, Tyre Inflation Facilities & more.

## WHERE CAN I BUY?

Get in touch with the team at Airbag Man & we will organise supply & or fitment with a local Airbag Man Specialist.
